Summary

Software Engineering fresh graduate and certified DevOps practitioner (FCDO) with expertise in full stack development, cloud operations, and UI/UX design. Experienced in building robust applications utilizing Vue.js, React, TypeScript, Laravel, and Flutter, supported by strong backend and database management skills (MySQL). Proficient in modern DevOps practices, including Docker containerization, Linux/Ubuntu environments, and Microsoft Azure deployments. User friendly interfaces designed in Figma, Adobe Illustrator, Adobe Photoshop, and Canva.

Education

Bachelor of Software Engineering (Honours)

- Universiti Pendidikan Sultan Idris
- Dean's List (Semester 1-8)
- Current CGPA: 3.85

Tanjung Malim, Perak
September 2022 - August 2026

Matriculation Certificate in Science Computer

- Kolej Matrikulasi Kedah
- Dean's List (Semester 3,4)
- CGPA : 3.83

Changlun, Kedah
June 2020 - June 2022

Work Experience

Software Designer Internship

SecureLabX Sdn Bhd.

February - August 2026

- Designed intuitive user interfaces and prototypes for management systems and operational applications using Figma.
- Standardized UI components, including colors, typography, and responsive layouts, to maintain design consistency across platforms.
- Simplified complex workflows into clear, user-friendly screen layouts to improve overall usability and user experience.

Packaging, Postage Management, Customer Service, and Promoter

Yemz Studio

August - September 2025

- Organized the packaging based on customer numbers and ensured accurate delivery.
- Solved customer issues politely and effectively.
- Engaged with customers to encourage product purchases

Skills

- **Development & Frameworks:** Vue.js, React, TypeScript, JavaScript, Laravel, Flutter, HTML, CSS, Tailwind CSS, Dart, PHP, Java, C++
- **DevOps & Infrastructure:** Docker, Linux, Ubuntu, Virtual Machines (VMs), Microsoft Azure, CI/CD operations
- **Databases & Backend:** MySQL, Firebase
- **Design Tools:** Figma, Adobe Illustrator, Adobe Photoshop, Canva
- **Version Control & Tools:** Git, GitHub
- **Languages:** Malay (Native), English (Fluent), Japanese (JLPT N3)

Projects

Local LLaMA AI Deployment

August 2026

- Built and deployed a local LLaMA artificial intelligence environment utilizing Docker containerization.
- Configured container environments to optimize resource allocation and ensure stable execution of the AI model.

Customer Relationship Management Full-Stack Development

July 2026

- Designed wireframes, prototypes, and user flows for a CRM system using Figma, focusing on customer data tracking, invoice management, and marketing team usability.
- Built using React, TypeScript (TSX), and MySQL.
- The system helps the marketing team track customer data, invoices, and company records in one centralized platform, reducing reliance on Excel and improving data monitoring efficiency.

Final Year Project - UniPerks Mobile E-Commerce Application

September - December 2026

- Developed a gamified e-commerce mobile app for university merchandise.
- Integrated quiz and reward systems allowing users to earn coins and redeem vouchers.
- Built using Flutter, Dart, and Supabase with role-based access for admins and users.

Full-Stack Development Project

April - June 2025

- Collaborated in a team to develop a web-based hostel registration system for university students
- Built using Laravel, Livewire, and Spatie, integrating real-time validation and student record linking.
- Implemented group registration features and an admin management dashboard

Library Management System

January - February 2025

- Designed and developed a fully functional web application to streamline book cataloging and user borrowing processes.
- Created high fidelity interactive prototypes in Figma with a strong focus on clean layouts and user friendly navigation.
- Programmed the backend architecture and dynamic frontend components utilizing PHP, ensuring smooth integration between the database and the user interface.

Certificate, Achievement, Program

- Foundation Certificate in DevOps (FCDO)
- Laravel Mastery Fundamental Workshops 2.0 2025
- COMASPRO'23: Free Computer Hardware & Software Maintenance (Hulu Selangor)
- 5thPlace - MIST'24: Fundamental STEM Coding Challenge
- 1stPlace - E-Sport MLBB Challenge, MIST'24
- 3rdPlace - Malaya E-Sport (University Malaya)
- SukIPT 6th Edition 2024
- 1st Place - SuperUPSI Esport MLBB 2024
- 2nd Place - SuperUPSI Esport MLBB 2025
